

TUG BOATS

Tariff in force from 1st January 2008
(Harbour Master Ordinance No. 128/07 20.12.2007)

Article 1 DEFINITIONS

- REGULATION means the rule in force for the Port of Venice Ships' Towage Service approved by the ordinance number 28/79 dd 22.08.1979 and further modifications and alterations.
- To calculate the towage tariff, the Venice Harbour is divided in two different areas:

ZONE A: the sea area of two miles from the entrances of Lido and of Malamocco

ZONE B: channels and lagoon basins classified as maritime navigation by the regulations concerning the limits of Harbour Boundaries contained in the Rule of Maritime Service of Port of Venice.

- BERTHING/UNBERTHING mean the towage service tendered by tug-boat employed up to the evolution basins admitting to the harbour channels, for the time strictly necessary for manoeuvring, after that the ship will proceed outbound or viceversa.
- TRANSFER means the towage service from the evolution basin to two miles out of the port entrance or viceversa

Article 2 GENERAL INFORMATION

This ordinance is based on the concept of LUMPSUM TARIFF that is applied per each tug boat for ships up to 15.000 gross tons bound to Portomarghera and for all other ships, of any tonnage, bound to Marittima. This ordinance is also based on the concept of TARIFF PER CALL applied to ships exceeding 15.000 gross tons bound to Portomarghera or making shifting in a same zone of the port and comprehensive both the manoeuvres of arrival and departure apart from the number of tugs employed.

- The INTERNATIONAL GROSS TONNAGE of the ship (G.T.) must be calculated, for the application of the respective tariff, as specified in the enclosure of the present ordinance.
